TESTIMONY OF THE PROP. OF OBSTETRICS IN PENN. COLSOR, PHILADELPHIA.—DR. HUNTER'S MEDICAL MANUAL.—The author of this work unlike the majority of those works who advertise to cure the diseases of which it treats, as a graduate of one of the best Colleges in the United States—It affords me pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity her may pleas the greatest confidence.

and experienced practitioner, in whose honor and integrity hey may place the greatest confidence.

JOSEPH LONGSHORE, M. D.
FROM A. WOODWARD, M. D., OF PENN. UNIVERSITY, PHILADELPHIA.—It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Mannai." Numerous cases of Diseases of the Genital Organs, ome of them of long standing, have come under my notice, in which his skill has been manifest in restoring to persect health, in severa instances where the patient has been ect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Semi-nal Weakness, or disarrangement of the functions, produced y self abuse or excess of venery, I do not know his supe-tor in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice o him, as well as a kindness to the unfortunate victim of o mm, as well as a kindness to the unfortunate victim of early indiscretion, to recommend him as one, in whose processional skill and integrity, they may safely confide themalives.

ALF. WOODWARD, M. D. This is, without exception, the most comprehensive and ntelligible work published on the class of diseases which treats. Avoiding all technical terms, it addresses itself the reason of its readers. It is free from all objectional le matter, and no parent, however fastidious, eo placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints.

"No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of

mparted in this invaluable work. It would save years of pain, mortification and serrow to the youth under their charge."—People's Advocate.

A Presbyterian elergyman in Ohio, in writing of "Huner's Medical Manual," says.—"Thousands upon thousands of our youth, by evir example and influence of the passions, have been led into the habit of self-pollution without realizing the sin and fearful consequences upon themselves and posterity. The constitutions of thousands who are raising a smiles have been enfeebled, if not broken down, and they do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide spread source of human wret-hedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generations. Intemperance (or the use of intoxicating drinks,) though it has slain thousands upon thousands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and, your co-worker in

the good work you are so actively engaged in."

Letter addressed to Messro. Besch & Brownson, Agents at Newborry C. H., S. C., by Rev. C. S. Beard, of same State. Glenn Spainos, Jan. 9th, 1853.

Messra. Beach & Brownson-Sirs: I sond for another bottle of your "Marchist's Uterine Catholicon." My wife has been resorted to for relief, but none was obtained until I raceived this medicine from you. Its influence seems almost waglesh there was a manifest improvement from the day it was taken.

As there are a great many funales in our country laboring under the affliction for which your medicine proposes a remedy, I feel it a duty to recommend it to all such.

W. corner of Third and Union streets, between Spruce and Pine, one and a half sources from the Exchange, Philadelphia.

Take Particular Notice.—There is a habit which boys teach each other at the academy or college—a habit indulged in when by themselves, in solitude, growing up with the boy to manhood, and which, if not abandoned in due time, not only begets serious obstacles to matrimonial happiness, but gives riso to a series of protracted, insidious and devastating affections. Few of those whe indulge in this pernicious practice are aware of the consequences, until they find the nervous system is shattered, feel strange and unaccountable feelings, vague fears in the mind. The individual hacames feeble, he is mable to labor with accustomed vigbecomes feeble, he is unable to labor with accustomed vigor, or to apply his mind to study, his step is sardy and weak, he is dull and irresolute, the countenance is downcast, the eves without natural lustre, shamefacedness is apparent.

If the victim has conscious of the cause of his decay, and having relinquished the odious practice, he suffers under those terrible nocturnal emissions, which weaken and shame him, producing mental and physical prostration. If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his senses tell him that this is caused by his early follies.

A GUE AND IFEVER, OR CHILLS AND FE-VER CURED BY SMITH'S TONIC SYRUP.—This justly celebrated Medicine has for many years maintained its superiority over all other remedies, for the safe, certain, speedy, and permanent cure of Ague and Fever, or Chille and Fever, whether of shorter long standing; and in no case will it fait to cure, if the directions are strictly followed and carried out. case will is fail to cure, if the directions are strictly followed and earried out.

This remedy has been extensively used throughout the States of Kentucky. Tennessee, Ohio, Indiana, Penneylvania, Michigan, Iowa, Wisconsin, Illinois, Missourt, Texas, Arkansas, Alabama, Mississippi, and Louisiana; and has permanently cured over rive members thousand cases, in all its varied forms, many of which had been of from one to three years' standing, and had resisted all the usual remedies known in the country; and in no case did this Medicine fail where the directions were properly followed. Such is its invariable success, that a large number of respectable Practitioners of Medicine, in various parts of the country, use and preserribe it in preference to quinke and all other

Practitioners of Medicine, in various parts of the country, uso and prescribe it in preference to quiline and all other romedies.

The public are assured that it is not only certain in its efects as a Tonic, but being composed entirely of vegetable medicines, is perfectly innocent in all cases or sircumstances, and may be given to females, infants, and all persons of debilitated and delijate constitutions, without the least fear whatever of any nopleasant effect.

This Medicine is composed of articles of the primest and purest quality, and is always made by the proprietor in person, after the established forms of pharmacy (which cannot be said of the many Tonics now flooding the Western and Southwestern country) and in this respect alone is rendered grestly superior to the remedies as usually prepared and sold in the country.

By its aperion and powerful diaphoretic properties, added to its Tonic qualities, it is rendered eminently superior to quinline and other remedies as a general and popular Tonic in all cases whatever, where Tonics are proper to be administered. The preprietor, therefore, respectially invites practitioners and the public generally to give it but a fair trial, and they will then be convinced of its great superiority over all other remedies now in use for the purpose specified.

Persons living in districts of country subject to Ague and Fever, thills and Fever, or Billous Fevers, would do well to keep a supply of this valuable remedy always on hand.

The proprietor has now in his possession thousands of certificates of its value, given by persons who have used it, with many letters from merchants who have sold it largely in their country, as well as from many respectable Practioners who have used it in preference to other remedies, are sting its value.
